## DEADLOCK ON SOFT COAL WAGE

(Canadian Press Wire.)
Washington, Nov. 22—A deadlock between the bituminous coal operators and miners in the central competitive field was forecast to-day by Thomas T. Brewster, chairman of the operators, when the joint scale committees met to discuss increased wage proposals made yesterday by Gecretary of Labor Wilson.
Brewster said Mr. Wilson's proposals of a wage advance of 27:12 cents a ton for diggers and \$1:50 a day for day laborers was wholly unsatisfactory to the operators.

COPYRIGHT 1919 - MCCLURE-

A vaudeville audience demands "pep" from the performers. It is most appreciative and most exacting. The actor has twenty minutes in which to "get it over "and he has no come-back later,"

They call it Vodeville, they drop in at D, pass the latest gossip, glancing out at the audience occasionally to see if it is still there and leave just before the last act "which always bores them."

Old regular who has been a fan ever since the old days when the theatre was in an alley and they called it "Variety."— "I like it because they're always showing us something now.

And you must admit that from the trained flees to grand opera they're coverin' some territory!"

The regular—

Sou'd have to kill him to make
him miss a week. Every number is a
wonder to him and criticism does not
in his cranium.

The Box Girl—
She never changes her expression from A to I and says:—
"It bores me dreadfully, and I don't know why I come, really!"

They take their vaudeville sparingly and quininishly and when they leave always say, "Oh my dear! Why did we come here to-night?"

Why vaudeville is — First couple on the way out—
He:—"That surely is a great bill this week!" She:—"I
think it's the best I ever saw, honestly!"— Second couple
He:—"Did you ever see such a punk show in your life?"
She:—Awfu!! There wasn't a redeeming number on the bil!!"
